About This Content

Slash'EM, or Super Lotsa Added Stuff Hack - Extended Magic, is a variant game based on the original NetHack.

This DLC provides the Vulture interface for Slash'EM effectively adding another game to your collection.

Compared to standard NetHack, Slash'EM adds:

- Six new player roles
- Five new player races
- Several new special levels

- Many new monsters, items and artifacts
- Loads of other small changes.

The main dungeon is longer in Slash'EM than in NetHack and most people regard Slash'EM as much more difficult than NetHack. There's an old saying that goes: "NetHack doesn't care if you live or die, but Slash'EM wants you dead".
